

Private Medical Insurance Benefit for Employees

Our Private Medical Insurance benefit offers comprehensive healthcare coverage, including fast treatments, access to specialists, and a broad range of services. We are committed to ensuring that all employees regardless of their previous medical history—can benefit from private healthcare when they need it most.

Key Features

- **Comprehensive Coverage:** The PMI plan covers a wide range of healthcare services, including inpatient and outpatient care, diagnostic tests, specialist consultations, and surgeries. Additionally, mental health services, preventative care, and wellness check-ups are included to ensure your overall well-being.
- **Pre-existing Conditions Disregarded:** One of the key features of our PMI plan is that non-chronic pre-existing medical conditions are disregarded. This means that if you have any ongoing medical conditions or a history of health issues, they will **not** impact your ability to access private healthcare services under the Statom Group Ltd plan. There is also an annual allowance for chronic conditions under our policy through GP referred services.

There will be **no exclusions** for acute pre-existing conditions, ensuring that all employees have equal access to the benefits of private medical insurance, regardless of their health history.

- **Choice and Flexibility:** Our plan provides you with **the flexibility to choose your healthcare providers from a wide network of private hospitals**, clinics, and specialists full list can be found on the My Employment Portal situated on SharePoint.
- **Family Coverage:** At an addition cost you can extend the cover to cover your spouse and children, giving you the opportunity to protect the health of your loved ones as well.
- **Mental Health Support:** The plan includes coverage for mental health services, including therapy and counselling, as we understand the importance of mental well-being. This comprehensive approach ensures that you and your family receive support for both physical and mental health.
- **Additional Benefits:** At an additional cost you can access benefits like dental care, optical care, health screenings, and other preventative services to support your overall health.

HOW IT WORKS

- **Premiums and Contributions:** Statom Group Ltd covers the majority of the cost for the private medical insurance plan. However you will be asked to pay annual excess of £200 that will provide you access for the upcoming 12 months and will cover you for multiple claims.
- If you wish to include family members in your coverage, at your own cost, this can be arrange directly with the insurer by emailing statomgroup@cohibl.com

ACCESSING YOUR CARE
